Art Unit: 3662

1. Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for

failing to particularly point out and distinctly claim the subject matter which applicant regards as

the invention.

Claim 1 recites the limitation "the value indicated" in line 6. There is insufficient antecedent

basis for this limitation in the claim.

Claim 2 recites the limitation "the indicated value" in line 7. There is insufficient antecedent

basis for this limitation in the claim.

Claim 9 recites the limitation "the indicated value" in line 7. There is insufficient antecedent

basis for this limitation in the claim.

Claims 3-8, 10 and 11 are rejected for depending from the aforementioned rejected parent

claims.

2. Claims 1-11 would be allowable if rewritten or amended to overcome the rejections

under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

3. The prior art does not disclose the utilization of a code signal based on sound from a

sound calibrator; allowing a sound level meter to be switched into a calibration mode when

receiving the code signal; and automatically calibrating the sound level meter as recited in

independent claims 1, 2 and 9.
